DLSU CATVAS FEATURES

Cat Feed

The user can view a feed which contains posts of cats from registered users. It will have a feature where the viewer can sort it according to either the date of posting or the number of likes it has.

Adopt a Cat Page

This page contains information about cats that are available for adoption. It will have pictures of our furry friends alongside other relevant information.

Become a Godparent

This page contains pictures of furry friends who are in need of godparents. The user can select which furry friend they want to sponsor.

After selecting a furry friend, the user will then provide fill in the needed information to become a godparent.

Donate

This page will contain information on how to donate to the organization such as cash and in-kind donations.

View a user profile

Registered users will have a page attached to their account. It will contain their username, profile picture, and a brief description.

The registered users will also be able to edit any of the elements of their profile.

View a cat profile

Cats will have their own page that will contain relevant information including their names, age, and short description.

Register

Viewers can register in order to access privileges such as having their own profile, posting pictures to the cat feed, and the ability to like and favorite posts.

They will have to provide a username, password, and a short description of themselves.

Log in

If the viewer has a registered account, they will be able to log in, which will retrieve all the information associated with their account.

Log out

The user will be able to log out if they have an active session on the website. Credentials of the user will be cleared upon logging out.

Favorite Cat

A user may 'save' their favorite cat. This acts as a bookmark that allows them to view their favorite cats on a separate private page available only to them anytime.

Unfavorite Cat

The user can choose to unfavorite a previously favorited cat.

Create a Post

Registered users can post cat pictures and put a short description with it.

Comment

A registered user can comment on any of the posts in the cat feed posted by other users.

Edit

The user can edit any one of their comments in a post.

Delete a post

Registered users will be able to delete their own posts, removing both the picture and the comments within the post being deleted.

Delete a comment

Registered users can delete comments from posts in the cat feed.

Meowt

Registered users can like posts from the feed.

General

The user interface will be very inviting and will have an aesthetic look suitable to its content.
